- Industrial

EDH — EUROPEAN DIGITAL INNOVATION HUB BRETAGNE

Avec le soutien de Région BRETAGNE

Services Offered by EDIH Bretagne

- Leverage our existing EU networks and co-create 15 EDIH corridors to setup collaborations, develop new services and exchange competencies with other EU EDIHs: relations will be created or strengthened with EDIHs specialized in Cybersecurity and those sharing same S3 strategic sectors
- Create collaboration with neighbour EDIHs having complementary services
- Provide networking opportunities, based on existing partners networks, territorial skills and SME knowledge, matchmaking tools and event organization experience, partners identification

Offer a set of support services to find investment: incubation/acceleration, access to financial institutions and investors, project identification and evaluation (digital skills, innovation, market), access to market (expertise, investors, market, business support, public sector).

Develop regional cooperation

Test before invest

Develop European cooperation

Find funds to invest

Train to have the right skills

Offer testing services before making further investments will the following objectives: PoC/demo activities, adaptation and integration of new technologies, HW/SW testing and experimentation, knowledge transfer, etc.

Test environments include cybersecurity, AI & data, digital health applications

Monitor the users' needs (mainly cybersecurity and IA skills and technologies monitoring), provide a catalogue of training services (existing and new ones):

- Short training courses (e-learning or face to face), - face to face middle-term training courses (face to face)
- MOOCs and tutorials

Relations outside / Corridors

EDIHs Network	EDIH (Country)	Collaboration topic
European Corridor of Cyber EDIHs (ECCE)	MicroCyber (Italy), SecTech (Hungary), Trakya (Bulgaria), NEST (Italy), Campus Cyber (France), Cybersec Hub (Poland)…	Cybersecurity
Smart Connectivity	13 EDIH candidates from 10 EU countries	5G, IoT, AI and Cybersec
EUHubs4Data BDVA i-space	35 candidates from 10+ EU countries	AI & data
EDIH corridor for Agrifood	EDIH4Agrifood (Belgium) EDIH Boost Robotics East NL (Netherlands) EDIH Zuid NL (Netherlands)	Digital Agrifood
French EDIH Corridor	EDIHs from France	Best practises, feedback…

EDIH	Country (Region)	Collaboration topic
DIHNAMO	France (Normandie)	Cybersecurity, connected mobility
DIHNAMIC	France (Nouvelle Aquitaine)	Cybersecurity, ecodesign
DIVA	France (Pays de la Loire)	Cybersecurity and AI on Agri-food, Manufacturing, Maritime
CYBER DIH	Spain (Castilla y Leon)	Cybersecurity
DIGIS3	Spain (Castilla y Leon)	AI, HPC and IoT
Portugal Blue	Portugal (Norte)	Cybersecurity, Maritime
WAL HUB	Belgium (Wallonia)	Cybersecurity, Manufacturing, Agrifood
L-DIH	Luxembourg	Cybersecurity, Manufacturing

Expectations on the Cybsersecurity corridor

- Identify partners
- Provide networking opportunities
- Strenghten our position toward CE to propose topics / needs / tools / calls
- Build events together
- Build trainings together
- Share Testbeds
- Provide complementary skills / compétences / services
- Boost European investments
