*Digital For All, With All*

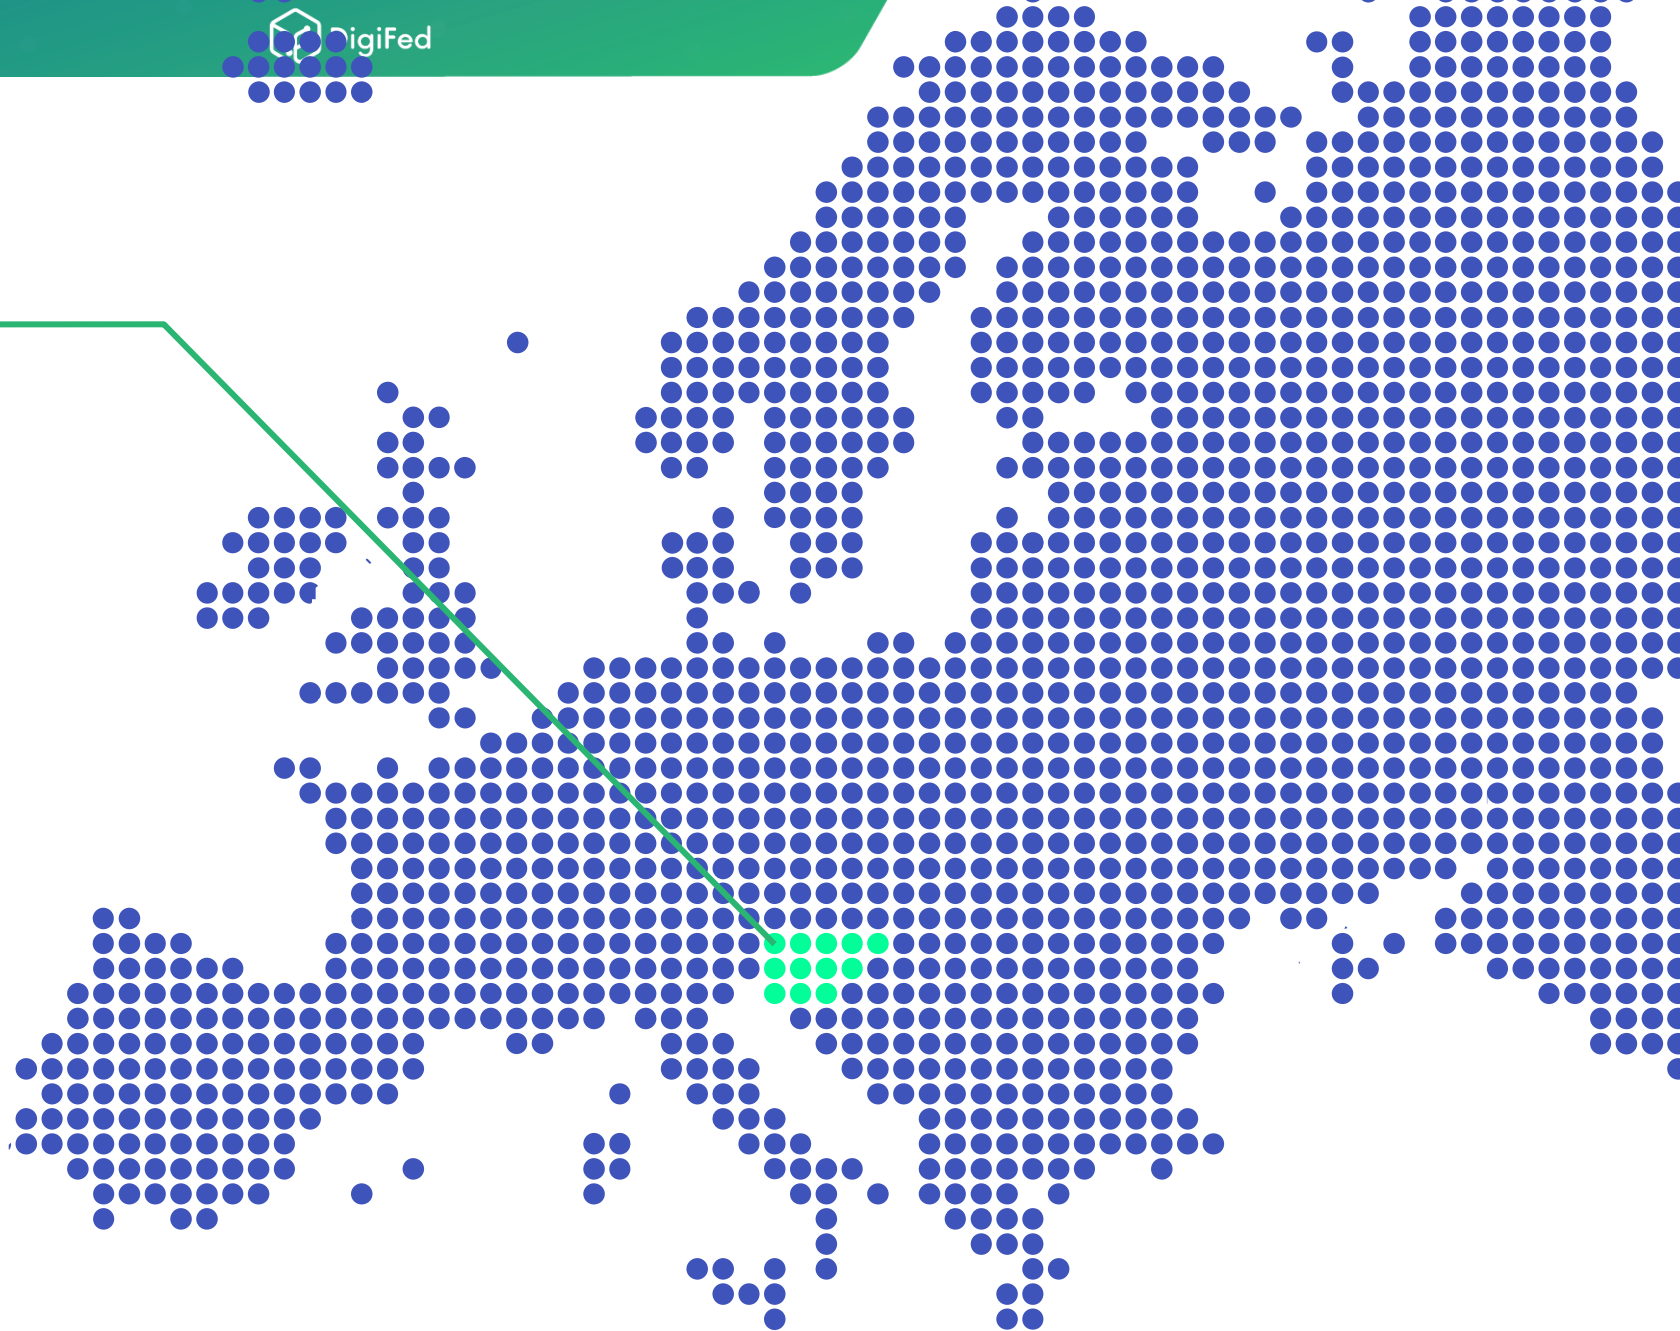

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 864266.

## Slovenia's 4PDIH

### Primary target groups:

- 200.000+ SMEs in the region
- 70+ Sectoral Networks and Initiatives
- 800+ Public Administration Institutions
- 212 Municipalities and Communities

# Vision

Together we will move the boundaries of the known and possible. In the economy and communities, we will innovate through the latest technologies and approaches.

Acting today for a better tomorrow.

Complete  
innovation  
service

## Technology for public good

Digitalisation for the public sector  
service enhancements.

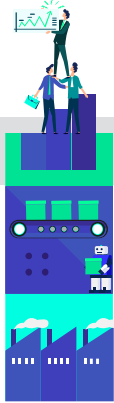

## Inclusiveness

*Digital for all, with all.*

Everybody can join digitalisation  
efforts to develop collective and  
individual's economic potential, future-  
proof skills and competences for a  
sustainable and greener future.

# 4PDIH Ecosystem

Innovation,  
Ecosystem &  
Networking

Access to  
Finance

# 4PDIH AI specialisation

## AI Automation in Manufacturing and Public Sector

Creating resilient and unique  
value-chain opportunities

### Semantics & Policy

Big Data and AI processing to benefit all

### Services & Skills

Innovative market-pull solutions

### Communications Infrastructure

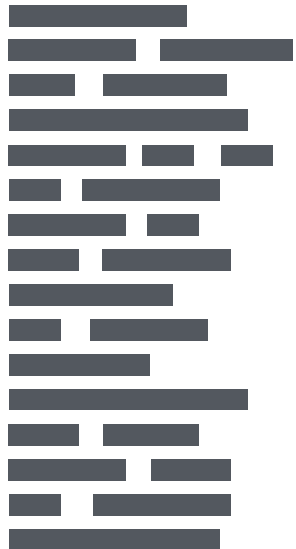

Data transfer resilience, including 5G

### Edge-to-Cloud Platforms

Robust sensor and processing networks

# Solving AI challenges

- Engineering complete software stack
- Systems integrations work
- Procuring resources for computing power
- Time-demanding underlying platforms
- Business case development

- **Fastest path to productive experimentation**
- **Eliminating design complexity**
- **Pre-built AlaaS**
- **Predictable training at scale**
- **Industrialize or mechanize the AI with valuable use-case sharing**
